Abeysinghe, S.C., Bayles, K.A., & Trosset, M.W. Semantic memory deterioration in Alzheimer's subjects: Evidence from word association, definition, and associate ranking tasks. Sept. 1990, 574–582.

Adams, S. *See* Forrest et al., June 1990, 386–389.

Adams, S. *See* McNeil et al., June 1990, 255–268.

Alcantara, J.I., Cowan, R.S.C., Blamey, P.J., & Clark, G.M. A Comparison of two training strategies for speech recognition with an electrotactile speech processor. March 1990, 195–204.

Arehart, K.H., Burns, E.M., & Schlauch, R.S. A Comparison of psychometric functions for detection in normal-hearing and hearing-impaired listeners. Sept. 1990, 433–439.

Arends, N., Povel, D-J., van Os, E., & Speth, L. Predicting voice quality of deaf speakers on the basis of glottal characteristics. March 1990, 116–122.

Bacon, S.P., & Blake, P.E. Temporal effects in simultaneous masking by vowel and consonant-vowel maskers. March 1990, 38–44.

Banzett, R. *See* Hoit et al., Dec. 1990, 798–807.

Barlow, S.M., & Burton, M.K. Ramp-and-hold force control in the upper and lower lips: Developing new neuromotor assessment applications in traumatically brain injured adults. Dec. 1990, 660–675.

Bayles, K.A. *See* Abeysinghe et al., Sept. 1990, 574–582.

Beehler, D. *See* Nittrouer et al., Dec. 1990, 761–775.

Berke, G.S. *See* Hanson et al., March 1990, 45–50.

Bilger, R.C., Matthies, M.L., Hammel, D.R., & Demorest, M.E. Genetic implications of gender differences in the prevalence of spontaneous otoacoustic emissions. Sept. 1990, 418–432.

Bishop, D.V.M., Byers Brown, B., & Robson, J. The relationship between phoneme discrimination, speech production and language comprehension in cerebral-palsied individuals. June 1990, 210–219.

Blake, P.E. *See* Bacon & Blake, March 1990, 38–44.

Blamey, P.J. *See* Alcantara et al., March 1990, 195–204.

Blatchley, M. *See* Johnston et al., June 1990, 335–342.

Bloomberg, K., Karlan, G.R., & Lloyd, L.L. The comparative translucency of initial lexical items represented in five graphic symbol systems and sets. Dec. 1990, 717–725.

Boose, M. *See* Cranford et al., Dec. 1990, 654–659.

Boothroyd, A. *See* Lahey et al., Sept. 1990, 619–621.

Bosshardt, H.G. Subvocalization and reading rate differences between stuttering and nonstuttering children and adults. Dec. 1990, 776–785.

Brenneise-Sarshad, R. *See* Siegel et al., March 1990, 9–15.

Brown, C.J., Zimmermann, G.N., Linville, R.N., & Hegmann, J.P. Self-paced behaviors in stutterers and nonstutterers. June 1990, 317–323.

Brown, R. *See* Hoit et al., Dec. 1990, 798–807.

Buder, E.H. *See* Read et al., June 1990, 363–374.

Burns, E.M. *See* Arehart et al., Sept. 1990, 433–439.

Burton, M.K. *See* Barlow & Burton, Dec. 1990, 660–675.

Butler-Hinz, S., Caplan, C., & Waters, G.S. Characteristics of syntactic comprehension deficits following closed head injury versus left cerebrovascular accidents. June 1990, 269–280.

Byers Brown, B. *See* Bishop et al., June 1990, 210–219.

Cannito, M.P., & Kondraske, G.V. Rapid manual abilities in spasmodic dysphonic and normal female subjects. March 1990, 123–133.

Caplan, C. *See* Butler-Hinz et al., June 1990, 269–280.

Carney, A.E., Kienle, M., & Miyamoto, R.T. Speech perception with a single-channel cochlear implant: A comparison with a single-channel tactile device. June 1990, 229–237.

Champlin, C.A., Muller, S.P., & Mitchell, S.A. Acoustic measurements of objective tinnitus. Dec. 1990, 816–821.

Childers, D.G., Hicks, D.M., Moore, G.P., Eskenazi, L., & Lalwani, A.L. Electroglottography and vocal fold physiology. June 1990, 245–254.

Childers, D.G. *See* Eskenazi et al., June 1990, 298–306.

Chin, S.B. *See* Dinnsen et al., March 1990, 28–37.

Clark, G.M. *See* Alcantara et al., March 1990, 195–204.

Colton, R.H. *See* Conture et al., June 1990, 404–405.

Conture, E.G., Colton, R.H., & Gleason, J.R. Authors' reply to DiSimoni's "comment." June 1990, 404–405.

Cooper, M. *See* Siegel et al., March 1990, 9–15.

Cowan, R.S.C. *See* Alcantara et al., March 1990, 195–204.

Cox, R., & Gilmore, C. Development of the profile of hearing aid performance (PHAP). June 1990, 343–357.

Craig, C.H., & Kim, B.W. Effects of time gating and word length on isolated word-recognition performance. Dec. 1990, 808–815.

Cranford, J.L., Boose, M., & Moore, C.A. Effects of aging on the precedence effect in sound localization. Dec. 1990, 654–659.

Cranford, J.L. *See* Moore et al., March 1990, 141–148.

Dalston, R.M. *See* Seaver & Dalston, June 1990, 358–362.

Davies, B. *See* Yoder & Davies, Sept. 1990, 563–573.

Davis, B.L., & MacNeilage, P.F. Acquisition of correct vowel production: A quantitative case study. March 1990, 16–27.

Delhorne, L.A. *See* Reed et al., Dec. 1990, 786–797.

Demorest, M.E. *See* Bilger et al., Sept. 1990, 418–432.

Di Simoni, F.G. Comment on Conture et al. (1988) and Prosek et al. (1988). June 1990, 402–403.

Dinnsen, D.A., Chin, S.B., Elbert, M., & Powell, T.W. Some constraints on functionally disordered phonologies: Phonetic inventories and phonotactics. March 1990, 28–37.

Dobrich, W. *See* Scarborough & Dobrich, March 1990, 70–83.

Dreschler, W.A., & Leeuw, A.R. Speech reception in reverberation related to temporal resolution. March 1990, 181–187.

Durieux-Smith, A. *See* Stuart et al., Sept. 1990, 612–615.

Durlach, N.I. *See* Reed et al., Dec. 1990, 786–797.

Edwards, J., & Harris, K.S. Rotation and translation of the jaw during speech. Sept. 1990, 550–562.

Elbert, M. *See* Dinnsen et al., March 1990, 28–37.

Elliott, L.L., Hammer, M.A., & Scholl, M.E. Response to Paula Tallal. Sept. 1990, 617–618.

Emanuel, F.W. *See* Toner et al., June 1990, 238–244.

Eskenazi, L. *See* Childers et al., June 1990, 245–254.

Eskenazi, L., Childers, D.G., & Hicks, D.M. Acoustic correlates of vocal quality. June 1990, 298–306.

SUBJECT INDEX

HEARING

NATURE OF HEARING AND ITS DISORDERS

Normal Auditory Systems

Effects of time gating and word length on isolated word-recognition performance. Craig, C.H., & Kim, B.W. Dec. 1990, 808–815.
Frequency selectivity and comodulation masking release in adults and in six-year-old children. Veloso, K., Hall, J.W.,

& Grose, J.H. March 1990, 96–102.
Genetic implications of gender differences in the prevalence of spontaneous otoacoustic emissions. Bilger, R.C., Matthies, M.L., Hammel, D.R., & Demorest, M.E. Sept. 1990, 418–432.
Recognition of voiceless fricatives by normal and hearing-impaired subjects. Zeng, F., & Turner, C.W. Sept. 1990, 440–449.
Relationships between selected auditory and phonatory latency measures in normal speakers. Stager, S.V. March 1990, 156–162.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.
Speech-recognition difficulties of the hearing-impaired elderly: The contributions of audibility. Humes, L.E., & Roberts, L. Dec. 1990, 726–735.
Temporal effects in simultaneous masking by vowel and consonant-vowel maskers. Bacon, S.P., & Blake, P.E. March 1990, 38–44.
Tracking of a "moving" fused auditory image under conditions that elicit the precedence effect. Moore, C.A., Cranford, J.L., & Rahn, A.E. March 1990, 141–148.

Auditory and Other Otic Pathologies

Acoustic measurements of objective tinnitus. Champlin, C.A., Muller, S.P., & Mitchell, S.A. Dec. 1990, 816–821.
Effects of aging on the precedence effect in sound localization. Cranford, J.L., Boose, M., & Moore, C.A. Dec. 1990, 654–659.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.

Hearing Loss and Deafness

A Comparison of psychometric functions for detection in normal-hearing and hearing-impaired listeners. Arehart, K.H., Burns, E.M., & Schlauch, R.S. Sept. 1990, 433–439.
A Comparison of two training strategies for speech recognition with an electrotactile speech processor. Alcantara, J.I., Cowan, R.S.C., Blamey, P.J., & Clark, G.M. March 1990, 195–204.
Distortion-product otoacoustic emissions in humans with high frequency sensorineural hearing loss. Harris, F.P. Sept. 1990, 594–600.
Hearing loss, aging and speech perception in reverberation and noise. Helfer, K.S., & Wilber, L.A. March 1990, 149–155.
Masking of tone bursts by modulated noise in normal, noise-masked normal and hearing-impaired listeners. Humes, L.E. March 1990, 3–8.
Predicting voice quality of deaf speakers on the basis of glottal characteristics. Arends, N., Povel, D-J., van Os, E., & Speth, L. March 1990, 116–122.
Recognition of voiceless fricatives by normal and hearing-impaired subjects. Zeng, F., & Turner, C.W. Sept. 1990, 440–449.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.
Speech perception in low-pass filtered noise for normal and hearing-impaired listeners. Stelmachowicz, P.G., Lewis, D.E., Kelly, W.J., & Jesteadt, W. June 1990, 290–297.
Speech reception in reverberation related to temporal resolution. Dreschler, W.A., & Leew, A.R. March 1990, 181–187.
Speech-recognition difficulties of the hearing-impaired elderly: The contributions of audibility. Humes, L.E., & Roberts, L. Dec. 1990, 726–735.

ASSESSMENT OF HEARING

Psychoacoustics

A Comparison of psychometric functions for detection in normal-hearing and hearing-impaired listeners. Arehart, K.H., Burns, E.M., & Schlauch, R.S. Sept. 1990, 433–439.
Effects of aging on the precedence effect in sound localization. Cranford, J.L., Boose, M., & Moore, C.A. Dec. 1990, 654–659.
Frequency selectivity and comodulation masking release in adults and in six-year-old children. Veloso, K., Hall, J.W., & Grose, J.H. March 1990, 96–102.
Genetic implications of gender differences in the prevalence of spontaneous otoacoustic emissions. Bilger, R.C., Matthies, M.L., Hammel, D.R., & Demorest, M.E. Sept. 1990, 418–432.
Masking of tone bursts by modulated noise in normal, noise-masked normal and hearing-impaired listeners. Humes, L.E. March 1990, 3–8.
Modulation transfer functions: A comparison of the results of three methods. Scott, D.M., & Humes, L.E. June 1990, 390–397.
Response to Paula Tallal. Elliott, L.L., Hammer, M.A., & Scholl, M.E. Sept. 1990, 617–618.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.
Speech reception in reverberation related to temporal resolution. Dreschler, W.A., & Leew, A.R. March 1990, 181–187.
Temporal effects in simultaneous masking by vowel and consonant-vowel maskers. Bacon, S.P., & Blake, P.E. March 1990, 38–44.
Tracking of a "moving" fused auditory image under conditions that elicit the precedence effect. Moore, C.A., Cranford, J.L., & Rahn, A.E. March 1990, 141–148.

Acoustical Instruments, Measurements, and Standards

Acoustic measurements of objective tinnitus. Champlin, C.A., Muller, S.P., & Mitchell, S.A. Dec. 1990, 816–821.
Evaluation of an articulation-index based model for predicting the effects of adaptive frequency response hearing aids. Fabry, D.A., & Van Tasell, D.J. Dec. 1990, 676–689.
Speech-recognition difficulties of the hearing-impaired elderly: The contributions of audibility. Humes, L.E., & Roberts, L. Dec. 1990, 726–735.

Diagnostic Audiology—General

Distortion-product otoacoustic emissions in humans with high frequency sensorineural hearing loss. Harris, F.P. Sept. 1990, 594–600.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.

Specific Diagnostic Techniques and Approaches

ACOUSTIC IMMITTANCE

Language learning in a prospective study of otitis media with effusion in the first two years of life. Friel-Patti, S., & Finitzo, T. March 1990, 188–194.

BEHAVIORAL

Effects of time gating and word length on isolated word-recognition performance. Craig, C.H., & Kim, B.W. Dec. 1990, 808–815.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.
Tracking of a "moving" fused auditory image under conditions that elicit the precedence effect. Moore, C.A., Cranford, J.L., & Rahn, A.E. March 1990, 141–148.

ELECTROPHYSIOLOGIC

Distortion-product otoacoustic emissions in humans with high frequency sensorineural hearing loss. Harris, F.P. Sept. 1990, 594–600.
Relationships between selected auditory and phonatory latency measures in normal speakers. Stager, S.V. March 1990, 156–162.

PEDIATRIC

Frequency selectivity and comodulation masking release in adults and in six-year-old children. Veloso, K., Hall, J.W., & Grose, J.H. March 1990, 96–102.
Language learning in a prospective study of otitis media with effusion in the first two years of life. Friel-Patti, S., & Finitzo, T. March 1990, 188–194.

SPEECH

Effects of time gating and word length on isolated word-recognition performance. Craig, C.H., & Kim, B.W. Dec. 1990, 808–815.
Predicting voice quality of deaf speakers on the basis of glottal characteristics. Arends, N., Povel, D-J., van Os, E., & Speth, L. March 1990, 116–122.
Recognition of voiceless fricatives by normal and hearing-impaired subjects. Zeng, F., & Turner, C.W. Sept. 1990, 440–449.
Speech perception in low-pass filtered noise for normal and hearing-impaired listeners. Stelmachowicz, P.G., Lewis, D.E., Kelly, W.J., & Jesteadt, W. June 1990, 290–297.
Speech-recognition difficulties of the hearing-impaired elderly: The contributions of audibility. Humes, L.E., & Roberts, L. Dec. 1990, 726–735.

MASKING

Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.

INTERVENTION

Habilitation, Rehabilitation, and Education

A comparison of two training strategies for speech recognition with an electrotactile speech processor. Alcantara, J.I., Cowan, R.S.C., Blamey, P.J., & Clark, G.M. March 1990, 195–204.
Critical differences in aided sound field thresholds in children. Stuart, A.,

Durieux-Smith, A., & Stenstrom, R. Sept. 1990, 612–615.
Development of the profile of hearing aid performance (PHAP). Cox, R., & Gilmore, C. June 1990, 343–357.
Perception of terminal fall contours in speech produced by the hearing impaired. Rubin-Spitz, J., & McGarr, N.S. March 1990, 174–180.
Speech perception with a single-channel cochlear implant: A comparison with a single-channel tactile device. Carney, A.E., Kienle, M., & Miyamoto, R.T. June 1990, 229–237.
Speech reception in reverberation related to temporal resolution. Dreschler, W.A., & Leeuw, A.R. March 1990, 181–187.
Speech-recognition difficulties of the hearing-impaired elderly: The contributions of audibility. Humes, L.E., & Roberts, L. Dec. 1990, 726–735.
A study of the tactual and visual reception of fingerspelling. Reed, C.M., Delhorne, L.A., Durlach, N.I., & Fischer, S.D. Dec. 1990, 786–797.

Hearing Aids and Other Prostheses

A Comparison of two training strategies for speech recognition with an electrotactile speech processor. Alcantara, J.I., Cowan, R.S.C., Blamey, P.J., & Clark, G.M. March 1990, 195–204.
Complex and pure-tone signals in the evaluation of hearing-aid characteristics. Stelmachowicz, P.G., Lewis, D.E., Seewald, R.C., & Hawkins, D. June 1990, 380–385.
Critical differences in aided sound field thresholds in children. Stuart, A., Durieux-Smith, A., & Stenstrom, R. Sept. 1990, 612–615.
Development of the profile of hearing aid performance (phap). Cox, R., & Gilmore, C. June 1990, 343–357.
Evaluation of an articulation-index based model for predicting the effects of adaptive frequency response hearing aids. Fabry, D.A., & Van Tasell, D.J. Dec. 1990, 676–689.
Performance of cochlear implant patients as a function of time. Spivak, L.G., & Waltzman, S.B. Sept. 1990, 511–519.
Preferred insertion gain of hearing aids in listening and reading-aloud situations. Kuk, F.K. Sept. 1990, 520–529.
Speech perception with a single-channel cochlear implant: A comparison with a single-channel tactile device. Carney, A.E., Kienle, M., & Miyamoto, R.T. June 1990, 229–237.

BISENSORY SPEECH PERCEPTION

Visual biasing of normal and impaired auditory speech perception. Walden, B.E., Montgomery, A.A., Prosek, R.A., & Hawkins, D.B. March 1990, 163–173.

CENTRAL AUDITORY PROCESSING

Reply to Eliott et al. Tallal, P. Sept. 1990, 619.

TACTILE COMMUNICATION

A study of the tactual and visual reception of fingerspelling. Reed, C.M., Delhorne, L.A., Durlach, N.I., & Fischer, S.D. Dec. 1990, 786–797.

LANGUAGE

NATURE OF NORMAL LANGUAGE

Language Development

Acquisition of correct vowel production: A quantitative case study. Davis, B.L., & MacNeilage, P.F. March 1990, 16–27.
Development of children with early language delay. Scarborough, H.S., & Dobrich, W. March 1990, 70–83.
Imitation of intonation by infants. Siegel, G.M., Cooper, M., Morgan, J.L., & Brenneise-Sarshad, R. March 1990, 9–15.
The initial learning of novel English words: Two single-subject experiments with minority-language children. Kiernan, B., & Swisher, L. Dec. 1990, 707–716.
Is the syntax development of dysphasic children deviant and why? New findings to an old question. Grimm, H., & Weinert, S. June 1990, 220–228.
Language learning in a prospective study of otitis media with effusion in the first two years of life. Friel-Patti, S., & Finitzo, T. March 1990, 188–194.
Miniature language system acquisition by children with different learning proficiencies. Johnston, J., Blatchley, M., & Streit, G. June 1990, 335–342.
Predictors of novel inflection learning by preschool-aged boys. Nakamura, M., Plante, E., & Swisher, L. Dec. 1990, 747–754.
School-age children's metalinguistic awareness of grammaticality in verb form. Sutter, J.C., & Johnson, C.J. March 1990, 84–95.
Syllable durations of preword and early word vocalizations. Robb, M.P., & Saxman, J.H. Sept. 1990, 583–593.
Vocal fundamental frequency variability in young children: Comments on Robb and Saxman (1985). Lahey, M., Flax, J., Harris, K., & Boothroyd, A. Sept. 1990, 619–621.

Language Use in Adults

Effects of time gating and word length on isolated word-recognition performance. Craig, C.H., & Kim, B.W. Dec. 1990, 808–815.

Language Differences and Different Languages

The initial learning of novel English words: Two single-subject experiments with minority-language children. Kiernan, B., & Swisher, L. Dec. 1990, 707–716.

Verbal Learning and Memory

The initial learning of novel English words: Two single-subject experiments with minority-language children. Kiernan, B., & Swisher, L. Dec. 1990, 707–716.
Predictors of novel inflection learning by preschool-aged boys. Nakamura, M., Plante, E., & Swisher, L. Dec. 1990, 747–754.
The relationship between phoneme discrimination, speech production and language comprehension in cerebral-palsied individuals. Bishop, D.V.M., Byers Brown, B., & Robson, J. June 1990, 210–219.
School-age children's metalinguistic awareness of grammaticality in verb form. Sutter, J.C., & Johnson, C.J. March 1990, 84–95.

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders

Characteristics of syntactic comprehension deficits following closed head injury versus left cerebrovascular accidents. Butler-Hinz, S., Caplan, C., & Waters, G.S. June 1990, 269–280.
Knowledge and strategies for processing lexical metaphor after right or left hemisphere brain damage. Tompkins, C.A. June 1990, 307–316.
On prognostic research in adult neurologic disorders. Tompkins, C.A., Jackson, S.T., & Schulz, R. June 1990, 398–401.
Oral structure nonspeech motor control in normal dysarthric, aphasic and apraxic speakers: Isometric force and static position control. McNeil, M.R., Weismer, G., Adams, S., & Mulligan, M. June 1990, 255–268.
Semantic memory deterioration in Alzheimer's subjects: Evidence from word association, definition, and associate ranking tasks. Abeysinghe, S.C., Bayles, K.A., & Trosset, M.W. Sept. 1990, 574–582.

Language Disorders in Children

The comparative translucency of initial lexical items represented in five graphic symbol systems and sets. Bloomberg, K., Karlan, G.R., & Lloyd, L.L. Dec. 1990, 717–725.
Content analysis and intratest performance profiles on the Columbia and the TONI. Kamhi, A., Minor, J., & Mauer, D. June 1990, 375–379.
Development of children with early language delay. Scarborough, H.S., & Dobrich, W. March 1990, 70–83.
Fine-grained discrimination deficits in language-learning impaired children are neither specific to the auditory modality or to speech perception. Tallal, P. Sept. 1990, 616–617.
Is the syntax development of dysphasic children deviant and why? New findings to an old question. Grimm, H., & Weinert, S. June 1990, 220–228.
Miniature language system acquisition by children with different learning proficiencies. Johnston, J., Blatchley, M., & Streit, G. June 1990, 335–342.
Reply to Eliott et al. Tallal, P. Sept. 1990, 619.
Response to Paula Tallal. Elliott, L.L., Hammer, M.A., & Scholl, M.E. Sept. 1990, 617–618.

Learning Disabilities

Development of children with early language delay. Scarborough, H.S., & Dobrich, W. March 1990, 70–83.
Fine-grained discrimination deficits in language-learning impaired children are neither specific to the auditory modality or to speech perception. Tallal, P. Sept. 1990, 616–617.
Reply to Eliott et al. Tallal, P. Sept. 1990, 619.
Response to Paula Tallal. Elliott, L.L., Hammer, M.A., & Scholl, M.E. Sept. 1990, 617–618.

Language Disorders in Mental Retardation

The comparative translucency of initial lexical items represented in five graphic symbol systems and sets. Bloomberg, K., Karlan, G.R., & Lloyd, L.L. Dec. 1990, 717–725.

Do parental questions and topic continuations elicit replies from developmentally delayed children? A sequential analysis. Yoder, P.J., & Davies, B. Sept. 1990, 563–573.

Speech and prosody characteristics of adults with mental retardation. Shriberg, L.D., & Widder, C.J. Dec. 1990, 627–653.

ASSESSMENT AND INTERVENTION

Assessment

Content analysis and intratest performance profiles on the Columbia and the TONI. Kamhi, A., Minor, J., & Mauer, D. June 1990, 375–379.

Response to Paula Tallal. Elliott, L.L., Hammer, M.A., & Scholl, M.E. Sept. 1990, 617–618.

Intervention

Do parental questions and topic continuations elicit replies from developmentally delayed children? A sequential analysis. Yoder, P.J., & Davies, B. Sept. 1990, 563–573.

Nonspeech Communications Systems

The comparative translucency of initial lexical items represented in five graphic symbol systems and sets. Bloomberg, K., Karlan, G.R., & Lloyd, L.L. Dec. 1990, 717–725.

NEUROLINGUISTICS & AGING

Some effects of advanced aging on the visual-language processing capacity of the left and right hemispheres: Evidence from unilateral tachistoscopic viewing. Rastatter, M.P., & McGuire, R.A. March 1990, 134–140.

PROGNOSIS; TREATMENT EFFICACY

On prognostic research in adult neurologic disorders. Tompkins, C.A., Jackson, S.T., & Schulz, R. June 1990, 398–401.

ALZHEIMER'S DEMENTIA

Semantic memory deterioration in Alzheimer's subjects: Evidence from word association, definition, and associate ranking tasks. Abeysinghe, S.C., Bayles, K.A., & Trosset, M.W. Sept. 1990, 574–582.

ICONICITY

The comparative translucency of initial lexical items represented in five graphic symbol systems and sets. Bloomberg, K., Karlan, G.R., & Lloyd, L.L. Dec. 1990, 717–725.

READING

Subvocalization and reading rate differences between stuttering and nonstuttering children and adults. Bosshardt, H.G. Dec. 1990, 776–785.

SPEECH

NATURE OF NORMAL SPEECH

Development of Speech and Voice

Acquisition of correct vowel production: A quantitative case study. Davis, B.L., & MacNeilage, P.F. March 1990, 16–27.

Imitation of intonation by infants. Siegel, G.M., Cooper, M., Morgan, J.L., & Brenneise-Sarshad, R. March 1990, 9–15.

Some constraints on functionally disordered phonologies: Phonetic inventories and phonotactics. Dinnsen, D.A., Chin, S.B., Elbert, M., & Powell, T.W. March 1990, 28–37.

Speech breathing in children and adolescents. Hoit, J., Hixon, T., Watson, P., & Morgan, W. March 1990, 51–69.

Syllable durations of preword and early word vocalizations. Robb, M.P., & Saxman, J.H. Sept. 1990, 583–593.

Vocal fundamental frequency variability in young children: Comments on Robb and Saxman (1985). Lahey, M., Flax, J., Harris, K., & Boothroyd, A. Sept. 1990, 619–621.

Anatomy and Physiology of the Adult Speech System

Estimating respiratory volumes from rib cage and abdominal displacements during ventilatory and speech activities. Reich, A.R., & McHenry, M.A. Sept. 1990, 467–475.

Frequency, intensity, and target matching effects on photoglottographic measure of open quotient and speed quotient. Hanson, D.G., Gerratt, B.R., & Berke, G.S. March 1990, 45–50.

Glottal closure and perceived breathiness during phonation in normally speaking subjects. Södersten, M., & Lindestad, P-Å Sept. 1990, 601–611.

Kinematic analysis of lip closure in stutterers' fluent speech. McClean, M.D., Kroll, R.M., & Loftus, N.S. Dec. 1990, 755–760.

Muscle spindles in the velopharyngeal musculature of humans. Kuehn, D.P., Templeton, P.J., & Maynard, J.A. Sept. 1990, 488–493.

Muscle spindles in the human levator veli palatini and palatoglossus muscles. Liss, J.M. Dec. 1990, 736–746.

Oral structure nonspeech motor control in normal dysarthric, aphasic and apraxic speakers: Isometric force and static position control. McNeil, M.R., Weismer, G., Adams, S., & Mulligan, M. June 1990, 255–268.

Ramp-and-hold force control in the upper and lower lips: Developing new neuromotor assessment applications in traumatically brain injured adults. Barlow, S.M., & Burton, M.K. Dec. 1990, 660–675.

The relationship of age and cardiovascular health to certain acoustic characteristics of male voices. Orlikoff, R.F. Sept. 1990, 450–457.

Relationships between selected auditory and phonatory latency measures in normal speakers. Stager, S.V. March 1990, 156–162.

Rotation and translation of the jaw during speech. Edwards, J., & Harris, K.S. Sept. 1990, 550–562.

Statistical comparison of movement amplitudes from groupings of normal geriatric speakers. Forrest, K., Weismer, G., & Adams, S. June 1990, 386–389.

Perception of Speech

Effects of time gating and word length on isolated word-recognition performance. Craig, C.H., & Kim, B.W. Dec. 1990, 808–815.

Evaluation of an articulation-index based model for predicting the effects of adaptive frequency response hearing aids. Fabry, D.A., & Van Tasell, D.J. Dec. 1990, 676–689.

Fine-grained discrimination deficits in language-learning impaired children are neither specific to the auditory modality or to speech perception. Tallal, P. Sept. 1990, 616–617.

Glottal closure and perceived breathiness during phonation in normally speaking subjects. Södersten, M., & Lindestad, P-Å Sept. 1990, 601–611.

Perception of terminal fall contours in speech produced by the hearing impaired. Rubin-Spitz, J., & McGarr, N.S. March 1990, 174–180.

Recognition of voiceless fricatives by normal and hearing-impaired subjects. Zeng, F., & Turner, C.W. Sept. 1990, 440–449.

The relationship between phoneme discrimination, speech production and language comprehension in cerebral-palsied individuals. Bishop, D.V.M., Byers Brown, B., & Robson, J. June 1990, 210–219.

Relationship of spectral noise levels to psychophysical scaling of vowel roughness. Toner, M.A., Emanuel, F.W., & Parker, D. June 1990, 238–244.

Response to Paula Tallal. Elliott, L.L., Hammer, M.A., & Scholl, M.E. Sept. 1990, 617–618.

SPEECH AND VOICE DISORDERS

Articulation and Resonance Disorders

Differential learning of phonological oppositions. Gierut, J.A. Sept. 1990, 540–549.

The relationship between phoneme discrimination, speech production and language comprehension in cerebral-palsied individuals. Bishop, D.V.M., Byers Brown, B., & Robson, J. June 1990, 210–219.

Response to Gierut, Elbert, & Dinnsen (1989). Tomes, L.A. June 1990, 407–408.

Response to Gierut, Elbert, & Dinnsen (1987). Tomes, L. June 1990, 412–413.

Some constraints on functionally disordered phonologies: Phonetic inventories and phonotactics. Dinnsen, D.A., Chin, S.B., Elbert, M., & Powell, T.W. March 1990, 28–37.

Speech and prosody characteristics of adults with mental retardation. Shriberg, L.D., & Widder, C.J. Dec. 1990, 627–653.

Speech production time and judgments of disordered nasalization in speakers with cleft palate. Jones, D.L., Folkins, J.W., & Morris, H.L. Sept. 1990, 458–466.

Craniofacial and Other Anomalies

Speech production time and judgments of disordered nasalization in speakers with cleft palate. Jones, D.L., Folkins, J.W., & Morris, H.L. Sept. 1990, 458–466.

Physiologically Based Speech Disorders

Acoustic correlates of vocal quality.

Eskenazi, L., Childers, D.G., & Hicks, D.M. June 1990, 298–306.
Autonomic correlates of stuttering and speech assessed in a range of experimental tasks. Weber, C.M., & Smith, A. Dec. 1990, 690–706.
Kinematic analysis of lip closure in stutterers' fluent speech. McClean, M.D., Kroll, R.M., & Loftus, N.S. Dec. 1990, 755–760.
Oral structure nonspeech motor control in normal dysarthric, aphasic and apraxic speakers: Isometric force and static position control. McNeil, M.R., Weismer, G., Adams, S., & Mulligan, M. June 1990, 255–268.
Perception of terminal fall contours in speech produced by the hearing impaired. Rubin-Spitz, J., & McGarr, N.S. March 1990, 174–180.
Ramp-and-hold force control in the upper and lower lips: Developing new neuromotor assessment applications in traumatically brain injured adults. Barlow, S.M., & Burton, M.K. Dec. 1990, 660–675.
Rapid manual abilities in spasmodic dysphonic and normal female subjects. Cannito, M.P., & Kondraske, G.V. March 1990, 123–133.
Speech breathing in individuals with cervical spinal cord injury. Hoit, J., Banzett, R., Brown, R., & Loring, S. Dec. 1990, 798–807.
The timing of syllable repetitions in developmental dyslexia. Wolff, P.H., Michel, G.F., & Ovrut, M. June 1990, 281–289.

Stuttering and Other Fluency Disturbances

Acoustical durations of speech segments during stuttering adaptation. Prins, D., & Hubbard, C.P. Sept. 1990, 494–499.
Authors' reply to DiSimoni's "comment." Conture, E.G., Colton, R.H., & Gleason, J.R. June 1990, 404–405.
Autonomic correlates of stuttering and speech assessed in a range of experimental tasks. Weber, C.M., & Smith, A. Dec. 1990, 690–706.
Comment on Conture et al. (1988) and Prosek et al. (1988). Di Simoni, F.G. June 1990, 402–403.
Kinematic analysis of lip closure in stutterers' fluent speech. McClean, M.D., Kroll, R.M., & Loftus, N.S. Dec. 1990, 755–760.
Relationships between selected auditory and phonatory latency measures in normal speakers. Stager, S.V. March 1990, 156–162.
Science and stuttering: Reply to DiSimoni (1989). Prosek, R.A., Montgomery, A.A., & Walden, B.E. June 1990, 406.
Self-paced behaviors in stutterers and nonstutterers. Brown, C.J., Zimmermann, G.N., Linville, R.N., & Hegmann, J.P. June 1990, 317–323.
Subvocalization and reading rate differences between stuttering and nonstuttering children and adults. Bosshardt, H.G. Dec. 1990, 776–785.

Voice and Other Laryngeal Disorders

Acoustic correlates of vocal quality. Eskenazi, L., Childers, D.G., & Hicks, D.M. June 1990, 298–306.
Electroglottography and vocal fold physiology. Childers, D.G., Hicks, D.M., Moore, G.P., Eskenazi, L., & Lalwani, A.L. June 1990, 245–254.
Frequency, intensity, and target matching effects on photoglottographic measure of open quotient and speed quotient. Hanson, D.G., Gerratt, B.R., & Berke, G.S. March 1990, 45–50.
Listener experience and perception of voice quality. Kreiman, J., Gerratt, B.R., & Precoda, K. March 1990, 103–115.
Predicting voice quality of deaf speakers on the basis of glottal characteristics. Arends, N., Povel, D-J., van Os, E., & Speth, L. March 1990, 116–122.
Rapid manual abilities in spasmodic dysphonic and normal female subjects. Cannito, M.P., & Kondraske, G.V. March 1990, 123–133.
The relationship of age and cardiovascular health to certain acoustic characteristics of male voices. Orlikoff, R.F. Sept. 1990, 450–457.
Relationships between selected auditory and phonatory latency measures in normal speakers. Stager, S.V. March 1990, 156–162.
Selected acoustic characteristics of voices before intubation and after extubation. Horii, Y., & Fuller, B. Sept. 1990, 505–510.
Short term stability measures for the evaluation of vocal quality. Feijoo, S., & Hernandez, C. June 1990, 324–334.

Assessment and Intervention

Assessment

Acoustic dimensions of hearing-impaired speakers' intelligibility: Segmental and suprasegmental characteristics. Metz, D.E., Schiavetti, N., Samar, V.J., & Sitler, R.W. Sept. 1990, 476–487.
Electroglottography and vocal fold physiology. Childers, D.G., Hicks, D.M., Moore, G.P., Eskenazi, L., & Lalwani, A.L. June 1990, 245–254.
Frequency, intensity, and target matching effects on photoglottographic measure of open quotient and speed quotient. Hanson, D.G., Gerratt, B.R., & Berke, G.S. March 1990, 45–50.
Glottal closure and perceived breathiness during phonation in normally speaking subjects. Södersten, M., & Lindestad, P-Å Sept. 1990, 601–611.
Ramp-and-hold force control in the upper and lower lips: Developing new neuromotor assessment applications in traumatically brain injured adults. Barlow, S.M., & Burton, M.K. Dec. 1990, 660–675.
Speech and prosody characteristics of adults with mental retardation. Shriberg, L.D., & Widder, C.J. Dec. 1990, 627–653.

Acoustic Measures of Speech and Voice

Acoustic correlates of vocal quality. Eskenazi, L., Childers, D.G., & Hicks, D.M. June 1990, 298–306.
Acoustic dimensions of hearing-impaired speakers' intelligibility: Segmental and suprasegmental characteristics. Metz, D.E., Schiavetti, N., Samar, V.J., & Sitler, R.W. Sept. 1990, 476–487.
Acoustic measurements of men's and women's voices: A study of context effects and covariation. Nittrouer, S., McGowan, R.S., Milenkovic, P.H., & Beehler, D. Dec. 1990, 761–775.
Electroglottography and vocal fold physiology. Childers, D.G., Hicks, D.M., Moore, G.P., Eskenazi, L., & Lalwani, A.L. June 1990, 245–254.
Listener experience and perception of voice quality. Kreiman, J., Gerratt, B.R., & Precoda, K. March 1990, 103–115.
Relationship of spectral noise levels to psychophysical scaling of vowel roughness. Toner, M.A., Emanuel, F.W., & Parker, D. June 1990, 238–244.
The relationship of age and cardiovascular health to certain acoustic characteristics of male voices. Orlikoff, R.F. Sept. 1990, 450–457.
Short term stability measures for the evaluation of vocal quality. Feijoo, S., & Hernandez, C. June 1990, 324–334.
Speech analysis systems: A survey. Read, C., Buder, E.H., & Kent, R.D. June 1990, 363–374.
Syllable durations of preword and early word vocalizations. Robb, M.P., & Saxman, J.H. Sept. 1990, 583–593.
Vocal fundamental frequency variability in young children: Comments on Robb and Saxman (1985). Lahey, M., Flax, J., Harris, K., & Boothroyd, A. Sept. 1990, 619–621.

Intervention

Differential learning of phonological oppositions. Gierut, J.A. Sept. 1990, 540–549.
Response to Gierut, Elbert, & Dinnsen (1989). Tomes, L.A. June 1990, 407–408.
Response to Gierut, Elbert, & Dinnsen (1987). Tomes, L. June 1990, 412–413.

Instrumentation for Diagnosis, Treatment, and Research

Acoustic dimensions of hearing-impaired speakers' intelligibility: Segmental and suprasegmental characteristics. Metz, D.E., Schiavetti, N., Samar, V.J., & Sitler, R.W. Sept. 1990, 476–487.
Electroglottography and vocal fold physiology. Childers, D.G., Hicks, D.M., Moore, G.P., Eskenazi, L., & Lalwani, A.L. June 1990, 245–254.
Estimating respiratory volumes from rib cage and abdominal displacements during ventilatory and speech activities. Reich, A.R., & McHenry, M.A. Sept. 1990, 467–475.
Frequency, intensity, and target matching effects on photoglottographic measure of open quotient and speed quotient. Hanson, D.G., Gerratt, B.R., & Berke, G.S. March 1990, 45–50.
Oral structure nonspeech motor control in normal dysarthric, aphasic and apraxic speakers: Isometric force and static position control. McNeil, M.R., Weismer, G., Adams, S., & Mulligan, M. June 1990, 255–268.
Ramp-and-hold force control in the upper and lower lips: Developing new neuromotor assessment applications in traumatically brain injured adults. Barlow, S.M., & Burton, M.K. Dec. 1990, 660–675.
Rapid manual abilities in spasmodic dysphonic and normal female subjects. Cannito, M.P., & Kondraske, G.V. March 1990, 123–133.
Speech analysis systems: A survey. Read, C., Buder, E.H., & Kent, R.D. June 1990, 363–374.
Using simultaneous nasometry and standard audio recordings to detect acoustic onsets and offsets of speech. Seaver,

E.J., & Dalston, R.M. June 1990, 358–362.

SPEECH PRODUCTION: HEARING IMPAIRED

Perception of terminal fall contours in speech produced by the hearing impaired. Rubin-Spitz, J., & McGarr, N.S. March 1990, 174–180.

PHONOLOGICAL DISORDERS AND TREATMENT

Response to Gierut, Elbert, & Dinnsen (1987). Tomes, L. June 1990, 412–413.

Response to Gierut, Elbert, & Dinnsen (1989). Tomes, L.A. June 1990, 407–408.

ACOUSTICS OF NORMAL ADULT SPEECH

Acoustic measurements of men's and women's voices: A study of context effects and covariation. Nittrouer, S., McGowan, R.S., Milenkovic, P.H., & Beehler, D. Dec. 1990, 761–775.

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

Research Issues and Methodology

Comment on Conture et al. (1988) and Prosek et al. (1988). Di Simoni, F.G. June 1990, 402–403.

On prognostic research in adult neurologic disorders. Tompkins, C.A., Jackson, S.T., & Schulz, R. June 1990, 398–401.

TITLE INDEX

Acoustic correlates of vocal quality. Eskenazi, L., Childers, D.G., & Hicks, D.M. June 1990, 298–306.

Acoustic dimensions of hearing-impaired speakers' intelligibility: Segmental and suprasegmental characteristics. Metz, D.E., Schiavetti, N., Samar, V.J., & Sitler, R.W. Sept. 1990, 476–487.

Acoustic measurements of men's and women's voices: A study of context effects and covariation. Nittrouer, S., McGowan, R.S., Milenkovic, P.H., & Beehler, D. Dec. 1990, 761–775.

Acoustic Measurements of Objective Tinnitus. Champlin, C.A., Muller, S.P., & Mitchell, S.A. Dec. 1990, 816–821.

Acoustical durations of speech segments during stuttering adaptation. Prins, D., & Hubbard, C.P. Sept. 1990, 494–499.

Acquisition of correct vowel production: A quantitative case study. Davis, B.L., & MacNeilage, P.F. March 1990, 16–27.

Authors' reply to DiSimoni's "comment." Conture, E.G., Colton, R.H., & Gleason, J.R. June 1990, 404–405.

Autonomic correlates of stuttering and speech assessed in a range of experimental tasks. Weber, C.M., & Smith, A. Dec. 1990, 690–706.

Characteristics of syntactic comprehension deficits following closed head injury versus left cerebrovascular accidents. Butler-Hinz, S., Caplan, C., & Waters, G.S. June 1990, 269–280.

Comment on Conture et al. (1988) and Prosek et al. (1988). Di Simoni, F.G. June 1990, 402–403.

The comparative translucency of initial lexical items represented in five graphic symbol systems and sets. Bloomberg, K., Karlan, G.R., & Lloyd, L.L. Dec. 1990, 717–725.

A Comparison of psychometric functions for detection in normal-hearing and hearing-impaired listeners. Arehart, K.H., Burns, E.M., & Schlauch, R.S. Sept. 1990, 433–439.

A Comparison of two training strategies for speech recognition with an electrotactile speech processor. Alcantara, J.I., Cowan, R.S.C., Blamey, P.J., & Clark, G.M. March 1990, 195–204.

Complex and pure-tone signals in the evaluation of hearing-aid characteristics. Stelmachowicz, P.G., Lewis, D.E., Seewald, R.C., & Hawkins, D. June 1990, 380–385.

Content analysis and intratest performance profiles on the Columbia and the TONI. Kamhi, A., Minor, J., & Mauer, D. June 1990, 375–379.

Critical differences in aided sound field thresholds in children. Stuart, A., Durieux-Smith, A., & Stenstrom, R. Sept. 1990, 612–615.

Development of children with early language delay. Scarborough, H.S., & Dobrich, W. March 1990, 70–83.

Development of the profile of hearing aid performance (PHAP). Cox, R., & Gilmore, C. June 1990, 343–357.

Differential learning of phonological oppositions. Gierut, J.A. Sept. 1990, 540–549.

Distortion-product otoacoustic emissions in humans with high frequency sensorineural hearing loss. Harris, F.P. Sept. 1990, 594–600.

Do parental questions and topic continuations elicit replies from developmentally delayed children? A sequential analysis. Yoder, P.J., & Davies, B. Sept. 1990, 563–573.

Effects of aging on the precedence effect in sound localization. Cranford, J.L., Boose, M., & Moore, C.A. Dec. 1990, 654–659.

Effects of time gating and word length on isolated word-recognition performance. Craig, C.H., & Kim, B.W. Dec. 1990, 808–815.

Electroglottography and vocal fold physiology. Childers, D.G., Hicks, D.M., Moore, G.P., Eskenazi, L., & Lalwani, A.L. June 1990, 245–254.

Estimating respiratory volumes from rib cage and abdominal displacements during ventilatory and speech activities. Reich, A.R., & McHenry, M.A. Sept. 1990, 467–475.

Evaluation of an articulation-index based model for predicting the effects of adaptive frequency response hearing aids. Fabry, D.A., & Van Tasell, D.J. Dec. 1990, 676–689.

Fine-grained discrimination deficits in language-learning impaired children are neither specific to the auditory modality or to speech perception. Tallal, P. Sept. 1990, 616–617.

Frequency, intensity, and target matching effects on photoglottographic measure of open quotient and speed quotient. Hanson, D.G., Gerratt, B.R., & Berke, G.S. March 1990, 45–50.

Frequency selectivity and comodulation masking release in adults and in six-year-old children. Veloso, K., Hall, J.W., & Grose, J.H. March 1990, 96–102.

Genetic implications of gender differences in the prevalence of spontaneous otoacoustic emissions. Bilger, R.C., Matthies, M.L., Hammel, D.R., & Demorest, M.E. Sept. 1990, 418–432.

Glottal closure and perceived breathiness during phonation in normally speaking subjects. Södersten, M., & Lindestad, P-Å Sept. 1990, 601–611.

Hearing loss, aging and speech perception in reverberation and noise. Helfer, K.S., & Wilber, L.A. March 1990, 149–155.

Imitation of intonation by infants. Siegel, G.M., Cooper, M., Morgan, J.L., & Brenneise-Sarshad, R. March 1990, 9–15.

The initial learning of novel English words: Two single-subject experiments with minority-language children. Kiernan, B., & Swisher, L. Dec. 1990, 707–716.

Is the syntax development of dysphasic children deviant and why? New findings to an old question. Grimm, H., & Weinert, S. June 1990, 220–228.

Kinematic analysis of lip closure in stutterers' fluent speech. McClean, M.D., Kroll, R.M., & Loftus, N.S. Dec. 1990, 755–760.

Knowledge and strategies for processing lexical metaphor after right or left hemisphere brain damage. Tompkins, C.A. June 1990, 307–316.

Language learning in a prospective study of otitis media with effusion in the first two years of life. Friel-Patti, S., & Finitzo, T. March 1990, 188–194.

Listener experience and perception of voice quality. Kreiman, J., Gerratt, B.R., & Precoda, K. March 1990, 103–115.

Masking of tone bursts by modulated noise in normal, noise-masked normal and hearing-impaired listeners. Humes, L.E. March 1990, 3–8.

Miniature language system acquisition by children with different learning proficiencies. Johnston, J., Blatchley, M., & Streit, G. June 1990, 335–342.

Modulation transfer functions: A comparison of the results of three methods. Scott, D.M., & Humes, L.E. June 1990, 390–397.

Muscle spindles in the human levator veli palatini and palatoglossus muscles. Liss, J.M. Dec. 1990, 736–746.

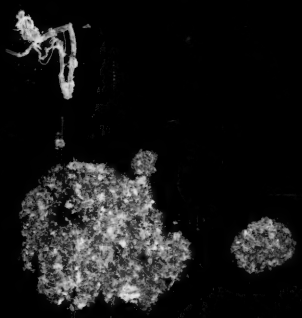
Muscle spindles in the velopharyngeal musculature of humans. Kuehn, D.P., Templeton, P.J., & Maynard, J.A. Sept. 1990, 488–493.

On prognostic research in adult neurologic disorders. Tompkins, C.A., Jackson, S.T., & Schulz, R. June 1990, 398–401.

Oral structure nonspeech motor control in normal dysarthric, aphasic and apraxic speakers: Isometric force and static position control. McNeil, M.R., Weismer, G., Adams, S., & Mulligan, M. June 1990, 255–268.

Perception of terminal fall contours in speech produced by the hearing impaired. Rubin-Spitz, J., & McGarr, N.S. March 1990, 174–180.

Performance of cochlear implant patients as a function of time. Spivak, L.G., & Waltzman, S.B. Sept. 1990, 511–519.

Predicting voice quality of deaf speakers on the basis of glottal characteristics. Arends, N., Povel, D-J., van Os, E., &


Speth, L. March 1990, 116–122.
Predictors of novel inflection learning by preschool-aged boys. Nakamura, M., Plante, E., & Swisher, L. Dec. 1990, 747–754.
Preferred insertion gain of hearing aids in listening and reading-aloud situations. Kuk, F.K. Sept. 1990, 520–529.
Ramp-and-hold force control in the upper and lower lips: Developing new neuromotor assessment applications in traumatically brain injured adults. Barlow, S.M., & Burton, M.K. Dec. 1990, 660–675.
Rapid manual abilities in spasmodic dysphonic and normal female subjects. Cannito, M.P., & Kondraske, G.V. March 1990, 123–133.
Recognition of voiceless fricatives by normal and hearing-impaired subjects. Zeng, F., & Turner, C.W. Sept. 1990, 440–449.
The relationship between phoneme discrimination, speech production and language comprehension in cerebral-palsied individuals. Bishop, D.V.M., Byers Brown, B., & Robson, J. June 1990, 210–219.
The relationship of age and cardiovascular health to certain acoustic characteristics of male voices. Orlikoff, R.F. Sept. 1990, 450–457.
Relationship of spectral noise levels to psychophysical scaling of vowel roughness. Toner, M.A., Emanuel, F.W., & Parker, D. June 1990, 238–244.
Relationships between selected auditory and phonatory latency measures in normal speakers. Stager, S.V. March 1990, 156–162.
Reply to Eliott et al. Tallal, P. Sept. 1990, 619.
Response to Gierut, Elbert, & Dinnsen (1987). Tomes, L. June 1990, 412–413.
Response to Gierut, Elbert, & Dinnsen (1989). Tomes, L.A. June 1990, 407–408.
Response to Paula Tallal. Elliott, L.L., Hammer, M.A., & Scholl, M.E. Sept. 1990, 617–618.
Rotation and translation of the jaw during speech. Edwards, J., & Harris, K.S. Sept. 1990, 550–562.
School-age children's metalinguistic awareness of grammaticality in verb form. Sutter, J.C., & Johnson, C.J. March 1990, 84–95.
Science and stuttering: Reply to DiSimoni (1989). Prosek, R.A., Montgomery, A.A., & Walden, B.E. June 1990, 406.
Selected acoustic characteristics of voices before intubation and after extubation. Horii, Y., & Fuller, B. Sept. 1990, 505–510.
Self-paced behaviors in stutterers and nonstutterers. Brown, C.J., Zimmermann, G.N., Linville, R.N., & Hegmann, J.P. June 1990, 317–323.
Semantic memory deterioration in Alzheimer's subjects: Evidence from word association, definition, and associate ranking tasks. Abeysinghe, S.C., Bayles, K.A., & Trosset, M.W. Sept. 1990, 574–582.
Short term stability measures for the evaluation of vocal quality. Feijoo, S., & Hernandez, C. June 1990, 324–334.
Simple triangular approximations of auditory filter shapes. Formby, C. Sept. 1990, 530–539.
Some constraints on functionally disordered phonologies: Phonetic inventories and phonotactics. Dinnsen, D.A., Chin, S.B., Elbert, M., & Powell, T.W. March 1990, 28–37.
Some effects of advanced aging on the visual-language processing capacity of the left and right hemispheres: Evidence from unilateral tachistoscopic viewing. Rastatter, M.P., & McGuire, R.A. March 1990, 134–140.
Speech analysis systems: A survey. Read, C., Buder, E.H., & Kent, R.D. June 1990, 363–374.
Speech and prosody characteristics of adults with mental retardation. Shriberg, L.D., & Widder, C.J. Dec. 1990, 627–653.
Speech breathing in children and adolescents. Hoit, J., Hixon, T., Watson, P., & Morgan, W. March 1990, 51–69.
Speech breathing in individuals with cervical spinal cord injury. Hoit, J., Banzett, R., Brown, R., & Loring, S. Dec. 1990, 798–807.
Speech perception in low-pass filtered noise for normal and hearing-impaired listeners. Stelmachowicz, P.G., Lewis, D.E., Kelly, W.J., & Jesteadt, W. June 1990, 290–297.
Speech perception with a single-channel cochlear implant: A comparison with a single-channel tactile device. Carney, A.E., Kienle, M., & Miyamoto, R.T. June 1990, 229–237.
Speech production time and judgments of disordered nasalization in speakers with cleft palate. Jones, D.L., Folkins, J.W., & Morris, H.L. Sept. 1990, 458–466.
Speech reception in reverberation related to temporal resolution. Dreschler, W.A., & Leeuw, A.R. March 1990, 181–187.
Speech-recognition difficulties of the hearing-impaired elderly: The contributions of audibility. Humes, L.E., & Roberts, L. Dec. 1990, 726–735.
Statistical comparison of movement amplitudes from groupings of normal geriatric speakers. Forrest, K., Weismer, G., & Adams, S. June 1990, 386–389.
A study of the tactual and visual reception of fingerspelling. Reed, C.M., Delhorne, L.A., Durlach, N.I., & Fischer, S.D. Dec. 1990, 786–797.
Subvocalization and reading rate differences between stuttering and nonstuttering children and adults. Bosshardt, H.G. Dec. 1990, 776–785.
Syllable durations of preword and early word vocalizations. Robb, M.P., & Saxman, J.H. Sept. 1990, 583–593.
Temporal effects in simultaneous masking by vowel and consonant-vowel maskers. Bacon, S.P., & Blake, P.E. March 1990, 38–44.
The timing of syllable repetitions in developmental dyslexia. Wolff, P.H., Michel, G.F., & Ovrut, M. June 1990, 281–289.
Tracking of a "moving" fused auditory image under conditions that elicit the precedence effect. Moore, C.A., Cranford, J.L., & Rahn, A.E. March 1990, 141–148.
Using simultaneous nasometry and standard audio recordings to detect acoustic onsets and offsets of speech. Seaver, E.J., & Dalston, R.M. June 1990, 358–362.
Visual biasing of normal and impaired auditory speech perception. Walden, B.E., Montgomery, A.A., Prosek, R.A., & Hawkins, D.B. March 1990, 163–173.
Vocal fundamental frequency variability in young children: Comments on Robb and Saxman (1985). Lahey, M., Flax, J., Harris, K., & Boothroyd, A. Sept. 1990, 619–621.
